

**DR. GHAHERI PRESENTS:
“A MODERN APPROACH TO INFANT TONGUE TIE
AND LIP TIE”**

APRIL 7, 2017

8:00 AM – 12:00 PM

OU College of Dentistry
1201 N. Stonewall OKC, OK 73117

Dr. Ghaheri hails from the great land of southwestern Ohio. He did his undergraduate training in Spanish and Anthropology at Ohio State University, and remained there for medical school.

In 2002, he and his wonderful wife relocated to Portland, Oregon, where he did his residency training in otolaryngology/head and neck surgery at Oregon Health Sciences University. In 2007, he joined The Oregon Clinic, the largest multispecialty clinic in Oregon.

His clinical interest is in helping babies with breastfeeding difficulties. This desire stems from personal experiences, since both of his daughters had significant problems breastfeeding. He is one of the only ENT surgeons in the US who uses an in-office laser procedure to treat tongue and lip ties. The goal of this treatment is to allow babies to latch on to the breast. In addition, this treatment can be used to treat older children and adults for certain dental and speech issues.

Dr. Ghaheri is a nationally recognized speaker on the topic of lip and tongue ties. His lecture includes not only diagnostic criteria and evidence to support his treatment protocol but also videos showing his technique. Dr. Ghaheri is excited to bring this information to Oklahoma. It is unlikely that we will have the opportunity to have Dr. Ghaheri come again as his speaking engagements and full time practice take up a significant portion of his time. If you have the desire to learn the current diagnostic criteria, treatment technique, and evidence to support this vital treatment you should plan to attend this meeting.

Unfortunately no CME credit is offered for this engagement so we have significantly decreased the registration cost so as to give everyone the opportunity to hear this important lecture.

-----Please detach here and return-----

Please return this portion to the address below

Cost is **\$25.00** Checks to be made out to **Oklahoma Association of Pediatric Dentists**
